

Planning For Our Future

Blueprint KANSAS CITY PUBLIC SCHOOLS 2030

KCPS is embarking upon an extensive planning and engagement process that will capture how we approach the future of schools in our school district and community. The process of engaging our school district and community will be an opportunity to gather voices and participate in conversations that are important to the future of our schools. Help shape and refine our plans for the future. Read more about Blueprint 2030, the opportunity for all of our school and community stakeholders to get involved and our goals for the future of KCPS.

WHY BLUEPRINT 2030

KCPS wants to ensure all children living within the school district boundaries have access to a quality Pre-K through 12 educational experience and graduate ready for college, career and life. KCPS has been making great strides in academic achievement and we know that additional progress is needed to continue serving all of our students.

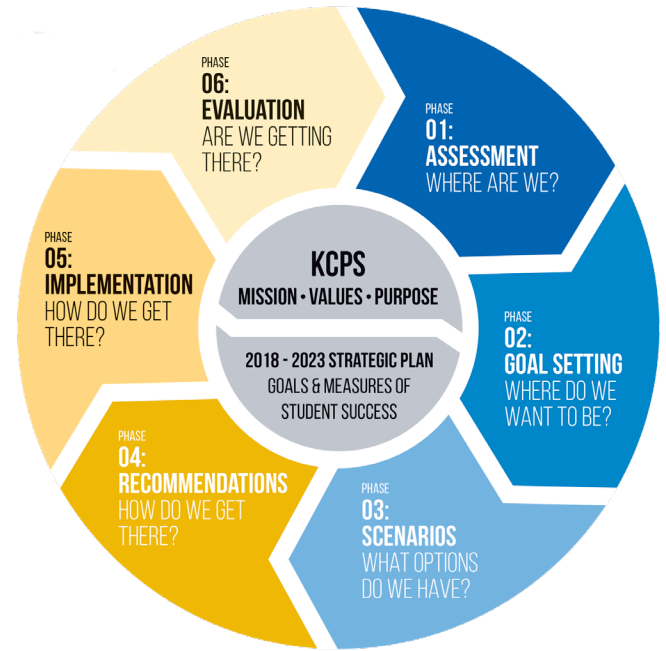

WHAT IS BLUEPRINT 2030

Blueprint 2030 is a year-long planning and community engagement effort that will define **how KCPS should serve students in the future and the system-level changes we need to take to get there**. It is a blueprint for the future that maximizes KCPS resources, improves efficiencies, and enhances the educational experience and academic outcomes for all students.

A SUSTAINABLE FUTURE FOR ALL

During Blueprint 2030, KCPS will work with our staff, parents, students and the KC community to:

- Conduct an assessment and evaluation of our current school system (where are we now?)
- Establish goals for the future (where do we want to be?)
- Evaluate scenarios (what options do we have for getting us from where we are now to where we want to be?)
- Identify recommendations for action (how do we get there?)

HOW TO GET INVOLVED

Community feedback is critical to the success of Blueprint 2030. KCPS has multiple opportunities to get involved:

ENGAGEMENT SERIES

Join us! We are looking for thoughts and suggestions as we navigate our Blueprint 2030 process. These engagement series opportunities are provided for our students, families, staff and community.

We welcome participation! KCPS will be offering several platforms and venues for student, staff and community engagement. Our Engagement Series is designed to collaborate with and listen to our staff and community.

There will be opportunities for in-person conversations through focus groups and

in-person meetings. There are also opportunities for input through online surveys. To take an online survey, visit the Blueprint 2030 website at KCPSBP2030.com.

BLUEPRINT 2030 ADVISORY TEAM

An advisory team of staff, students, parents, civic organizations and community members will help guide the development of Blueprint 2030 recommendations. The advisory team will meet regularly between February and Fall 2020.

If you are interested in serving on the Advisory Team or participating in a focus group, contact us at communications@kcpublicschools.org.
